The Meenakshi Sundararajan Legacy

“ We don’t just prepare students for careers. We shape human beings who contribute to the world. ”

In 1951, Prof. K. R. Sundararajan, a man of vision and purpose, planted the first seed of what would grow into a lasting home of learning. With 14 acres in the heart of Chennai, he held on to one simple belief, that good education doesn’t just shape people, it shapes nations.

That single act of faith gave birth to the Indian Institute of Engineering Technology Society (IIET). Seventy five years on, it has grown into one of Tamil Nadu’s most trusted names in education.

Today, the Meenakshi Sundararajan Group of Institutions is home to over **7,000 students** from the age of 4 to 35, across four distinguished institutions on a single, green, solar-powered campus. Each institution carries the same founding DNA: **strong academics, real-world relevance, and a genuine commitment to society.**

A JOURNEY OF PURPOSE, A LEGACY OF IMPACT.

OUR INSTITUTIONS

MEENAKSHI COLLEGE FOR WOMEN (MCW)

Meenakshi College for Women, Chennai, is an autonomous, government-aided institution of higher education for women, affiliated to the University of Madras. Founded in 1975, the International Women's Year, the college is run by the Ganapathi Educational Trust and carries forward a strong legacy of academic excellence, women's empowerment, and value-based education. With more than 3,000 students and nearly 40 undergraduate, postgraduate, and research programmes across Arts, Sciences, and Commerce, the college offers a broad-based learning environment rooted in a deep commitment to shaping responsible, self-reliant, and compassionate young women.

MEENAKSHI SUNDARARAJAN ENGINEERING COLLEGE (MSEC)

Meenakshi Sundararajan Engineering College, Chennai, is an autonomous institution managed by the IIET Society, approved by AICTE, and affiliated to Anna University, which also recognizes it as a Research Centre. Established in 2001, MSEC has grown into a centre of excellence in technical education, blending innovation, research, industry-relevant learning, and value-based education. Today, it stays committed to academic quality, community engagement, and a global outlook, nurturing skilled engineers with strong character who contribute meaningfully to society, the nation, and the world.

MEENAKSHI SUNDARARAJAN SCHOOL OF MANAGEMENT (MSSM)

Meenakshi Sundararajan School of Management offers an MBA programme affiliated to the University of Madras and approved by AICTE. The institution blends management theory with practical application through case-study-based teaching, industrial visits, NPTEL and MOOCs, along with a strong focus on entrepreneurship. With a student-faculty ratio of 12:1, MSSM places emphasis on individual attention, soft-skill development, leadership and communication. It nurtures confident, capable and future-ready management professionals equipped to contribute meaningfully to the business world.

The NEST School (TNS)

At The NEST School, every learner's aspirations are valued, curiosity is nurtured, and confidence, creativity and character are developed. Through IB and Cambridge pathways from Pre-KG to Grade 12, including Cambridge IGCSE, AS & A Levels, and the IB Diploma Programme (IBDP), students are empowered to discover their strengths, explore their interests and shape their own futures. Whether their passions lie in science, technology, medicine, business, the arts, design or beyond, learners are encouraged to question, create and pursue what inspires them. The future is not simply prepared for; it is shaped by every learner.

Upcoming

MEENAKSHI SUNDARARAJAN SCHOOL OF NURSING (MSSN)

MEENAKSHI SUNDARARAJAN SCHOOL OF LAW (MSSL)

Our Centres of Excellence

Meenakshi Sundararajan Career Development Centre (MS-CDC)

A dynamic career and faculty development center driving academic excellence toward global impact. MS-CDC empowers students to excel through tailored career workshops, internships, faculty training programmes, international academic collaborations, industry fairs & more.

Meenakshi Sundararajan Centre for Industrial & Institute Collaboration (MS-CIIC)

Bridging academia and industry through industry linked skill development & curriculum deployment, powered by world-class Industry centers of Excellence (ICE) in:

- Cyber Security
- Cyber Forensics (Panchhi)
- Robotics
- IoT (Kone)
- Cloud Computing (Anantha)
- AR/VR (Vi Micro)
- Advanced Manufacturing
- (Ace/Siemens), and more

Meenakshi Sundararajan Innovation and Incubation Centre (MS-IIC)

Partnership with T-HUB and Wadhvani Entrepreneurial Network to turn ideas into groundbreaking ventures. Apart from design and operation of the “Entrepreneurship” program, the center also handles innovation and mentorship initiatives across the campus.

Meenakshi Sundararajan Industry Centre of Excellence (MS-ICE)

Provides hands-on exposure to emerging technologies through experiential learning and industry-led practice. Develops technical competence through robotics, IoT, drones, AR/VR, 3D printing, electronics and more.

Meenakshi Sundararajan Centre for Competency Building (MS-CCB)

Builds the competencies that enable learners and faculty to perform with confidence and excellence. Focuses on technical, professional and emerging skills through structured, experiential development.

Sri Sankara Meenakshi Sundararajan Research Centre (SSMSRC)

Recognized as Research Institute by Anna University, it cultivates an intellectual research culture that encourages innovation, inquiry, and impactful scientific excellence.

The Centre for Industrial Institute Collaboration (CIIC) Connect serves as the bridge between academia and industry, creating collaborations that transform learning into real-world impact.

CENTRE OF COMPETENCY BUILDING (CCB)

The MSGI-wide hub for developing technical, professional, behavioural, communication and leadership competencies. CCB designs structured learning and assessment pathways aligned with academic needs, industry expectations and future skills, moving beyond one-time training towards practice, application, feedback and measurable capability. The centre works with CDC, CIIC, IIC and ICE to build continuous learning and professional growth across MSGI.
